

# Study for Gate

Robert Adams

---

## Not on display

**Title/Description:** Study for Gate

**Artist/Maker:** Robert Adams

**Born:** 1964

**Object Type:** Sculpture

**Materials:** Paint, Steel

**Accession Number:** 31546

**Historic Period:** 20th century

**Production Place:** Britain, England, Europe

**Credit Line:** Bequeathed by Joyce and Michael Morris, 2014

---

In 1964 the sculptor Robert Adams was commissioned to create a gate for a private residence in Dallas, USA. He produced related studies in this period that explore different configurations of connected rods in an open rectangular frame. In this freestanding example, Adams varies the density of the cellular clusters, some of which project outwards.

In his final design for the Dallas gate, Adams used a double layer of connected rods. The two webs were joined at the vertical sides of the gate and opened out in the centre. Adams continued to explore this form and produced a similar screen for his own home in 1965. [1]
