**The Bottles' Activity:
Fill us with magic**

**with artist
Caitlin Howells**

We have been standing empty in the
gallery for a long time...

Can you invent a colourful potion that
would fill us with magic?

Find a mixture of clear bottles and jugs

Fill some with water and add a few drops of different food colouring to some of them

Stand them on some old paper in the bath, or outside if you have space

Mix and pour and experiment with your potions

Can you think of anything else to add that might change the way your potions look or smell?

Pretend to give your potion to a toy. What happens to the toy?
Can you make a story about your toy drinking the potion?

What does the paper look like when you have finished?
