Man of Stones' Activity  
with artist

SORREL MUGGRIDGE

**Man of Stones' Activity:  
Join me in the glorious mud**

**with artist  
Sorrel Muggridge**

I look like I have just waded out of the marshy mud  
with stones and sticks adorning my shape.

Are you ready for some muddy, messy outdoor fun?

Put three large scoops of soil into an old bowl or pan

Gradually add water – just a little at a time, to make a nice thick mixture. Can you find a stick to stir it with?

Look around for interesting shaped pebbles, stones and sticks to add to your mixture

Use a paint brush or your hands to cover your stones with mud, feeling the texture

Watch the colour of the mud change as it dries.

What do the stones feel like?

You could paint mud on your hands and feel it dry

Can you think of a way to describe how the mixture smells?

Can you stack the rocks and sticks as you paint them?

What happens if you add more soil or more water?
